General characteristics

- For dry running pump protection; auxiliary AC supply
- Direct connection, 16A max, or by external CT
- Voltage control range: 80-660VAC
- Current control range: 0.1-16A
- **Excellent tripping accuracy**
- Resetting or enabling input
- 1 relay output with 1 changeover contact
- Modular DIN 43880 housing, 3 modules
- Degree of protection: IP40 on front (only when mounted in housing or electric board with IP40); IP20 on terminals.
